THE PARASONIC CONCEPT:

ParaSonic combines two of the most popular woods for manufacturing high-end drums: Maple and Birch. We use the natural characteristics of each wood to create a tailored sound for each drum. That being said, Maple has a naturally longer sustain with a lower fundamental note while Birch has a slightly shorter sustain and brighter attack. The smaller drums use a blend of Maple and Birch combined with a slightly thicker shell to produce a brighter tone with a sharper attack. On the other hand, larger drums utilize 100% North American Sugar Maple shells combined with a slightly thinner shell to create the natural sustain and lower fundamental note for the size of drum. This is a perfect pairing of materials and shell thicknesses to create a tailored sound. The ease in tuning and flow of tone from drum to drum will amaze you.

NEW LUG DESIGN:

BASS DRUMS FEATURE SOUNDRINGS™:

Model: GK518F-DS

GoKit ♦ *Daytona Sunset*

◀ 14"x11" Addon Floor Tom

For those looking to add more low-end to their GoKit, we now offer a fitting 14"x11" floor tom. Available in Daytona Sunset, Antique Honey, and White Pearl, this is the perfect addition to your kit.

TAYE METALWORKS DOUBLE AND SINGLE BASS DRUM PEDALS

THE ULTIMATE KICK PEDAL

Model: TMW-D
TMW (not shown)

Taye MetalWorks™ - The **Ultimate** Kick Pedal

Ever feel like your pedal just isn't responding to you? Ever feel like you're adjusting to the pedal rather than the pedal adjusting to you?

Taye MetalWorks™ resolves.

From its patented adjustable cam, to the length and feel of the footboard, MetalWorks creates a seamless bond between you and your machinery. MetalWorks eliminates concentrating on your equipment, allowing you to concentrate on your art.

Taye MetalWorks™... your only limitation is your imagination.

METALWORKS 14"x6.5" STAINLESS STEEL SNARE
