GALACTIC AUDITION

Galactic Audition is perfect for the beginner or intermediate drummer seeking high-end features such as 100% Poplar shells with our EFS™ Shell Technology, SideLatch® snare release, PocketHinge® mounting brackets, SpringFlex™ bass drum spurs, durable hardware, as well as black e-plated lugs and counterhoops complementing three durable laminate finishes. Select Galactic Audition configurations also include brass cymbals: a 16" crash and 14" hi-hats, and drum throne.

Ready to audition for your first gig? Nail it with the Galactic Audition.

FINISHES:

Wine Red

Black

White

Silver Sparkle

Available only in
GAD522S Stage
Configuration

SELECT FEATURES:

EFS™ Shell Technology: Engineered For Sound utilizes cross-lamination in the shell formation process. Cross-lamination is the method of perpendicularly alternating the direction of the wood grain within the plies, providing drums with extremely rigid shells, resulting in broad tuning ranges.

SideLatch® Snare Release: Simply designed for optimum performance, this side-action release system employs a minimum of moving parts. With a large knurled tension knob for easy snare adjustment, and our unique SlipLock™ feature that prevents unwanted loosening of snare tension, SideLatch® is strong, smooth, and flawlessly reliable.

Black E-Plated Lugs & Hoops: Besides their visual appeal, Galactic Audition's black e-plated lugs and hoops are durable and will not flake and chip from stick contact.

PocketHinge® Bracket: Another Taye innovation. With no internal pressure points, PocketHinge® effectively distributes force across a wide area of the rod to which it mounts, delivering dependable, slip-free performance.

CONFIGURATIONS
